

Dear Band Parent,

Your daughter's band dress hem has been altered and is now ready for her to wear with flat shoes. We are very appreciative of the five band moms that spent a day at CRMS altering the dresses! We are especially appreciative to Joyce Crider, the uniform specialist and band mom for VHS, who was in charge of our alteration crew.

Suggestions for care of the dress:

1. If you want to press your dress, turn it **inside-out**. Ironing on the front of the garment will leave shiny streaks.
2. The dresses are machine washable. We suggest not drying them in a dryer but hanging them to air dry.
3. Most dresses have a 3" hem and will still look good if the hem needs to be taken out in the future. The inches were left in case your child grows. The ends have been surged in case you need to take the hem out entirely.

We are very excited about how nice the girls look in these dresses! Thank you for your support!

The Band Staff at CRMS
